Ty. Cobb Gives His Old Auto to Veteran "Dutch" Schaefer

Ty Cobb has presented Herman Schaefer with his old automobile. The car which he has been using will be of no further use to him now that he has received the one offered to the best major league batsman.

In giving Schaefer the machine Cobb is repaying "Germany" for the many kindly turns he did for Cobb. "If it were not for Schaefer's interest in me I would not have made myself the ball player I am," said Cobb, after announcing that Schaefer was now the possessor of an automobile.

"When I joined the Detroit club I knew but little, but Schaefer taught me. The very first day he got after me because I did not pick my feet up and run as he thought I should. Then he told me to turn toward second when going to first, so that if anything happened to the ball I could take another base."

Mother—Why should we make Willie a doctor when there are so many new doctors every day? Rather—But think of all the new ailments!—Megendorfer Blaetter.

"That was all easy enough," put in Schaefer, "but I had an awful time teaching you how to slide." "Yes, you did. I thought it too dangerous in those days and would not try. But one day in an exhibition game at Indianapolis I saw Schaefer slide away from the baseman holding the ball, and I made up my mind that I would learn the trick. I asked Schaefer to teach me, and for the next two weeks we would go to the park every morning, and I would run and he would go through the motion of catching and touching me with the ball. He would tell me just when and how to slide, and if I made a mistake he would change places and he would do the sliding." "In that way I learned everything I know about base running, and I owe it all to Schaefer, and I gave him my machine in appreciation of the many kindnesses he has shown me."

"Oh, the wedding bells are pealing," sang the poet, filled with glee. Growled the cynic so unfeeling: "Oh, they don't appeal to me."—New York Times.

Barney Oldfield Says He is Going to Speedway Anyhow

Barney Oldfield is a wonder at getting in the limelight, says the Atlanta Georgian. He has more ways of doing it than any other living man.

His next effort will be to come to Atlanta and to try to break into the race meeting of the Atlanta Automobile association November 3, 4, and 5. Despite his suspension by the American Automobile association, Barney is coming to Atlanta, and he says that he will employ the best legal talent—Governor-elect Hoke Smith if he can get him—in an effort to force his way onto the local speedway and into the forthcoming race meeting.

The proposition of a man getting out an injunction to restrain an automobile association from preventing him from racing is a thoroughly novel one and could originate only in the mind of Billy Pickens, Oldfield's manager and press notice propounder.

The history of the case is this: Oldfield has an automobile of undeniable speed and when the local association went out after entries they went after Oldfield, even tho he is the most expensive race track feature

in America. Oldfield entered into an agreement to appear in America, making a contract to appear for a certain amount of appearance money and signing entry blanks for himself and his man, Ben Kircher, to take part in many racing events.

At that time Oldfield was in good standing with the American Automobile association. Shortly after that Oldfield framed up an unsanctioned meet with the negro pugilist, Jack Johnson, and for so doing he and Bill Pickens were suspended by the American Automobile association.

On October 14 Oldfield was scheduled to appear at a race meeting at Readville, Mass. But when his suspension was announced he was notified that he could not take part in the meeting.

So Oldfield "pulled off one." While the meeting was in progress Oldfield slipped into the track with his Benz car and drove several miles before anybody had the nerve to put him off. One of his miles was timed and he claimed the mark as a new record.

Pres't. Lynch Sides With Fogel in the Controversy Over Players

By Associated Press.

New York, Oct. 28.—It seems likely that President Thomas J. Lynch and Secretary John A. Heydler, of the National league, will uphold Horace Fogel, of the Philadelphia club, in his refusal to approve the big baseball deal arranged by his manager with the Cincinnati club. Commenting on a telegram received from Fogel that the deal was made without Fogel's knowledge and did not have his approval, President Lynch said:

"As it looks to me, Mr. Fogel has the whip and. No players can be released by a club without the president's signature and if Manager Doolin made this deal without Fogel's endorsement I don't believe it will stand. Suppose Manager McGraw should trade Mathewson to Chicago for Brown without Mr. Brush's consent, does anybody believe the deal

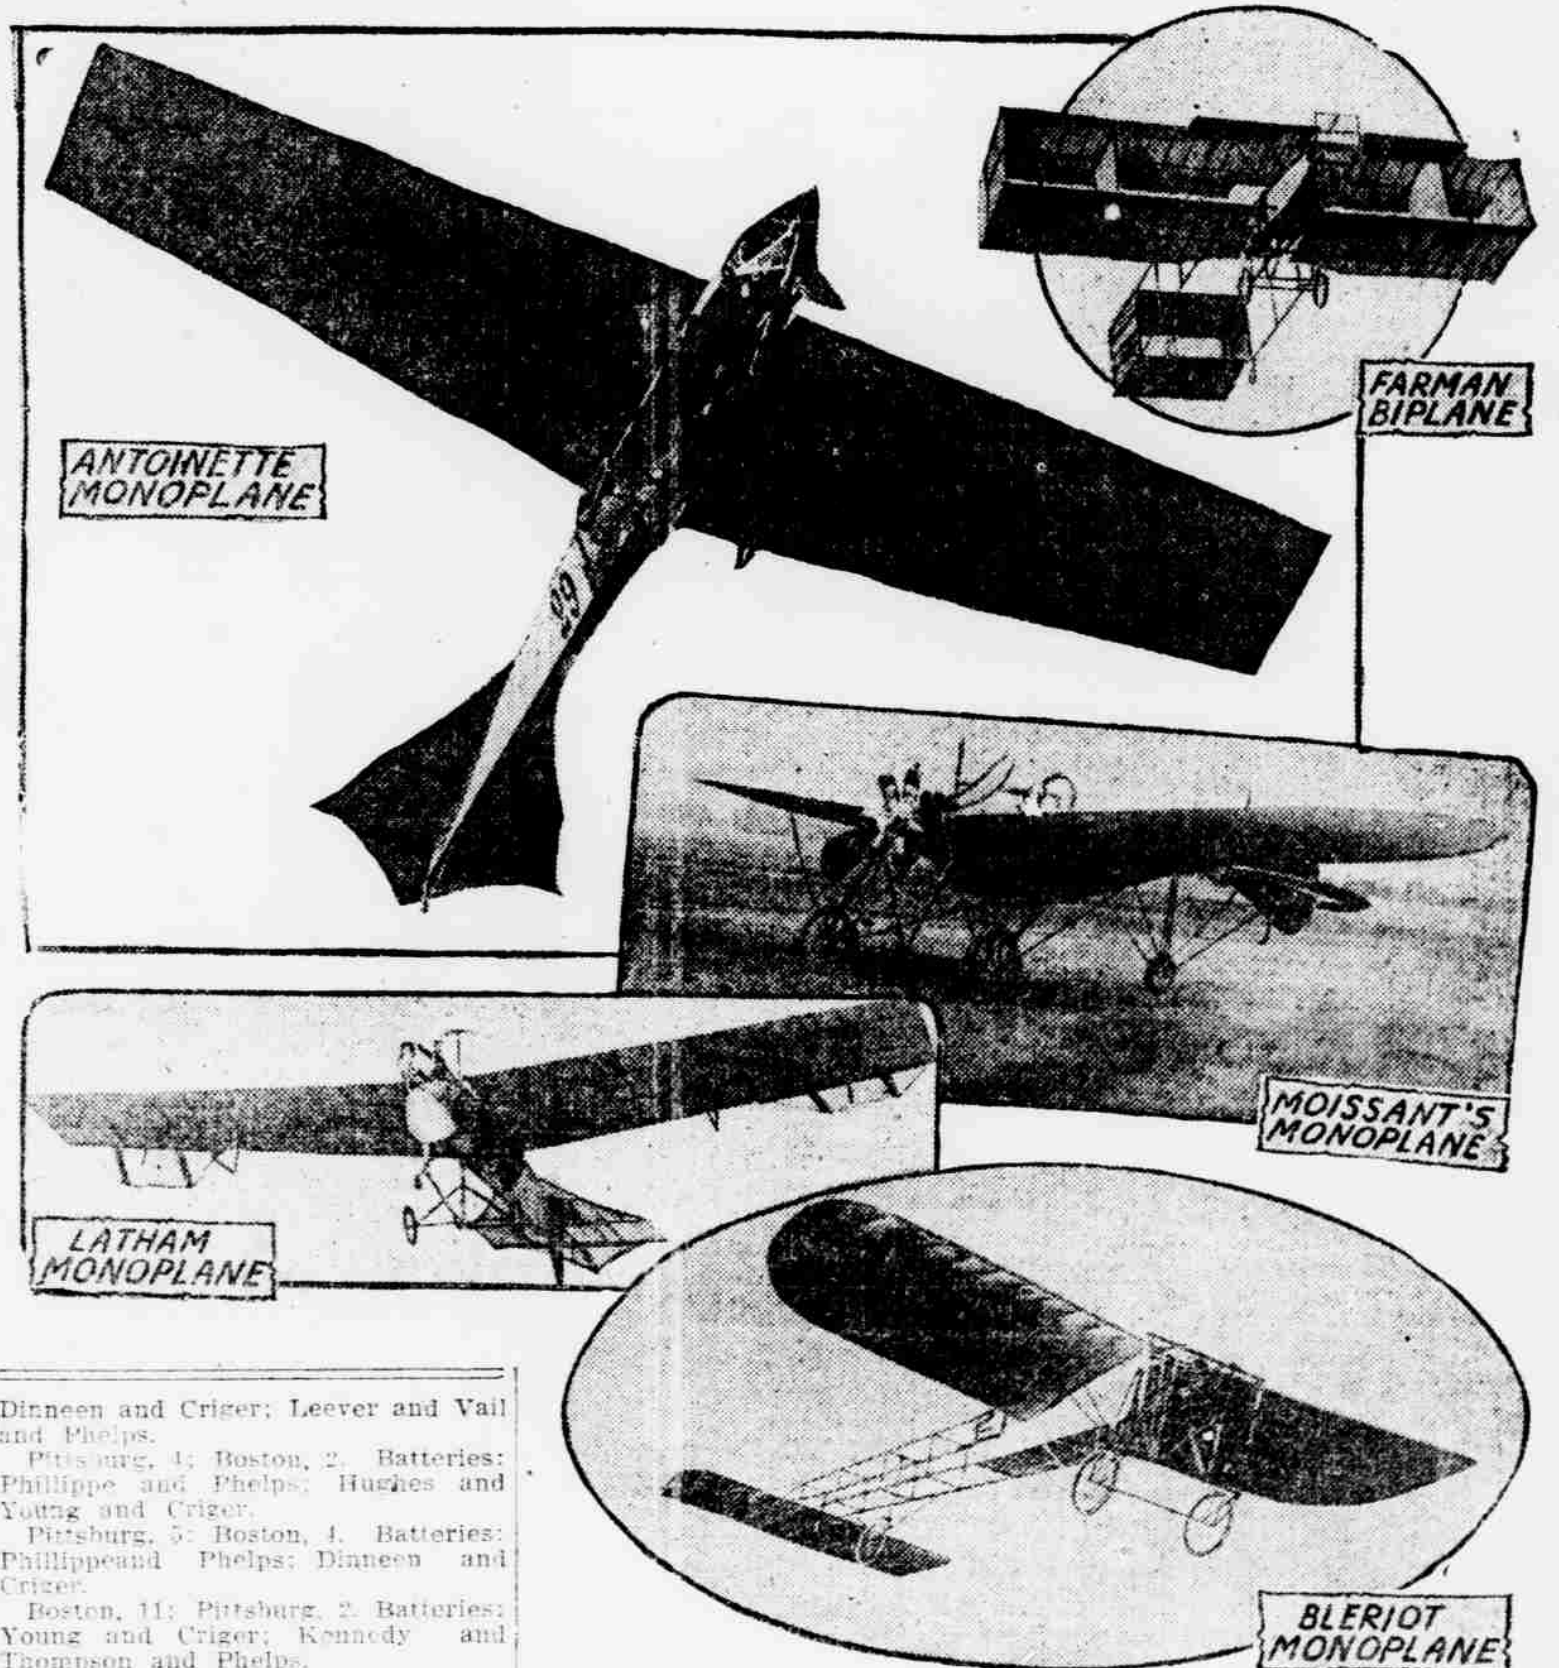

would go through without Brush's signature?"

"I think, however, that the controversy can be smoothed over some way and that the deal will be consummated. It is a good one for both clubs and neither has an advantage. New faces often revive interest and in the cases of Philadelphia and Cincinnati I am sure that changes will prove beneficial."

"Fogel has blocked the deal in a telegram to this office," said Secretary Heydler, "and in my opinion he will be sustained. A manager of a team cannot release players without the knowledge or consent of the owner."
